

SOLAR PV PERMITTING AND SAFETY TRAININGS

DOER is offering five regional training sessions on materials for building and electrical inspectors related to permitting for solar PV, as well as general PV safety for building inspectors, electrical inspectors, and solar installers.

Training sessions are being offered to inspectors for credit through their respective state association. To RSVP or ask questions on training details please contact: Emma Krause - emma.krause@state.ma.us or (617) 626 - 7371.
